The Office of Justice Programs (OJP) Performance Measurement Platform (PMP) is a unified system of applications and tools that collect and provide information for multiple U.S. Department of Justice (DOJ) programs. To access the PMP, all users must go through a secure single-sign-on user authentication process.

OJP's PMP is a central location where users can log in and access multiple OJP agency web-based applications. Users are added to the system based on grant award point-of-contact information received from the Grants Management System (GMS). Once logged in, the primary point of contact may add additional users.

The following is a list of OJP agencies and websites associated with the OJP PMP. They are all accessible via the log-in page, shown in the screenshot below.
